Iris Gardens

H. H. Banyard

Greetings 1963

It is always exciting to see another spring, bringing with it new life, and the anticipation of seeing the iris bloom again. Even when the Kansas wind seems determined to rip everything from the ground, there remains always with the true gardener the hope for a good season, and the joy of making new friends through the love of flowers.

This year, in addition to our iris list, we are adding a small list of peonies for sale. We ask you to look over the list and make comparisons with other price lists. We believe you will find the prices reasonable. The free packing and postage is quite an advantage in these days of high postal rates. We guarantee excellent roots—as good as you can get anywhere. Get peony orders in by September 1st—shipments will begin September 15th.

We advise getting your iris orders in early. Shipments begin in early July in the rotation that orders are received. Through long experience we have found that the months of July and August are the best months to plant iris. Of course you can plant later, but the plants should be well established before the winter has a chance to heave the roots out of place.

We thank our customers for past orders and hope for their continued patronage. Happy gardening to all in 1963!

Bargain Counter

SELECT ANY 10 — \$3.50 POSTPAID

The iris listed below are good iris — many of them leaders in their color class a few years ago. You will get top-size roots the same as if ordered from the regular listing. We have a surplus of these and are able to offer them at a bargain rate, but we must state that these will go fast and early ordering is necessary. To encourage you to order early we will give one root of each of four different varieties of intermediate iris (unlabeled) to anyone that orders from this bargain counter by July 1st.

Culture

It is a mistake to assume that because iris are extremely hardy they will not respond to a careful cultural plan. Above all, iris must have full sun and good drainage — given such conditions many of your iris troubles will be averted. Keep all dead leaves and litter removed — these breed disease. Iris will thrive in any ordinary garden soil. A good plan for the fertilizing of iris is to apply gypsum or lime in the spring, superphosphate after blooming, and a feeding of bone-meal in the fall. Larger blooms and more vigorous plants will be your reward.

PEONIES

The double peonies below are all good standard hardy varieties that will soon produce abundant bloom for you. You will receive strong 3 to 5 eye divisions which usually sell much higher than our listing.

Please Read Carefully—

1. Peonies cannot be shipped with iris orders.
2. Shipments will not start until September 15th.
3. All peony orders must be in our hands by September 1st.
4. We will accept no less than 3 roots as an order (unless you include 50c for packing and postage. Otherwise orders are sent postpaid.
5. Prices:

3 roots	—	\$3.00.
6 roots	—	\$5.00.
7 roots	—	\$5.80.

For any number of roots above 6 add 80c per root.

Planting

It is very important that peonies be planted with the "eyes" just two inches below the soil level. They like rich soil and plenty of water. It is advisable to pinch off the buds for the first year so that you develop a strong plant.
